TO WHOM IT MAY CONCERN

RE: Testimonial – PHYSIO4ALL

PHYSIO4ALL has provided ergonomic workstation assessments to the staff at Invisalign on a number of occasions over the past few years. We have found the staff at PHYSIO4ALL to be highly skilled and professional in their approach and have provided Invisalign Australia an invaluable service in helping correct our workstation ergonomics as well as giving the staff sound advice on posture and spinal care.

Invisalign Australia has had an excellent relationship thus far with PHYSIO4ALL and would not hesitate to recommending their services to any corporate clients interested in reviewing their OH&S, and in particular their ergonomic programs.

Yours faithfully,

**Mark Van Weelde
Managing Director**
